

William's Wish

William was born on May 26th, 1991 to his loving parents Jay and Augusta. He was a child full of life and vigor and blessed with a heart warming smile, a smile you could never forget. William always had aspirations and drive to always do more and live life to its fullest...that was William's Wish.

William was an exceptional student and a promising athlete who excelled in whatever sport he participated in, but most of all, William was an exceptional person. It was in the summer of 2002 that he was struck by an unknown illness that resulted in a lengthy hospitalization which would change William's plans forever.

William was hospitalized numerous times yet despite these obstacles, he still persevered and fought back. William continued his academics which was so important to him. He also continued to display strength and courage while displaying a positive spirit which would never be broken. William had very strong Faith and never lost the will to live or the drive to succeed.

William was hospitalized again during the summer of 2006 which turned out to be a very lengthy stay. The prognosis for his type of lupus was grim, but William always believed, never losing faith nor complaining, that he would get better. His painful stay was not without his desire to be pleasant and touch everyone with his smile and kind heart. He gave hope to those around him and brought sunshine into the lives of those who could not see the light. Through all this, William never lost his sense of humor and his unmatched wit.

William lost his battle on March 2nd, 2007. He passed while still expressing his love of family, friends and most of all life which was taken from him. His faith, dignity and ability to positively inspire all those around him will always be remembered. All will remember William's character as well as his goals; his Wish.

The Vincent Family has created William's Wish to ensure his legacy lives on.
