# Vedant Bedekar

Stephen Chandler Ericson Scholarship Recipient

Georgia Tech University – Aerospace Engineering

\$14,000.00

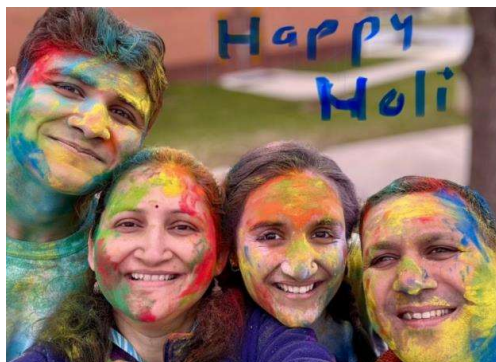

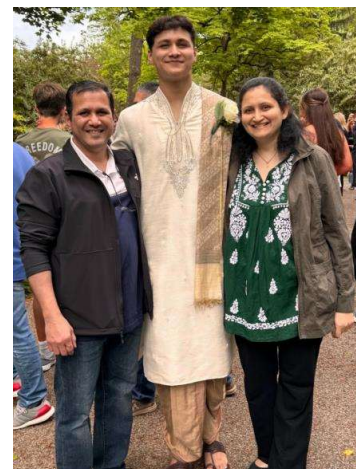

## Vedant Bedekar-Testimonial

*“When I received this award during graduation, I was in shock. I wasn’t expecting to receive any scholarships at graduation, since I’d already received those, I applied for in the prior months – I thought it was a mistake! Then I researched and spoke with the Ericson Family and started to learn why I was selected, and I couldn’t be more grateful. First, I’d like to thank the teachers who nominated me for this award; without you all, this would not be possible.*”

*“Because I will be attending the **Georgia Institute of Technology** next year to study **Aerospace Engineering**, my tuition is going to be very expensive, especially being an out-of-state student. The 2024 Stephen Chandler Ericson Scholarship will help me pay for my tuition and complete my studies in Pollution to help better our planet. I am extremely grateful to the Stephen Chandler Ericson Foundation, their sponsors, and especially, **Mrs. Laura Ericson**, for giving me this scholarship, and, explaining the story of her son, **Stephen Chandler Ericson**. He was, and is, an inspiration to so many with his amazing heart, and his vibrant and friendly personality.*”

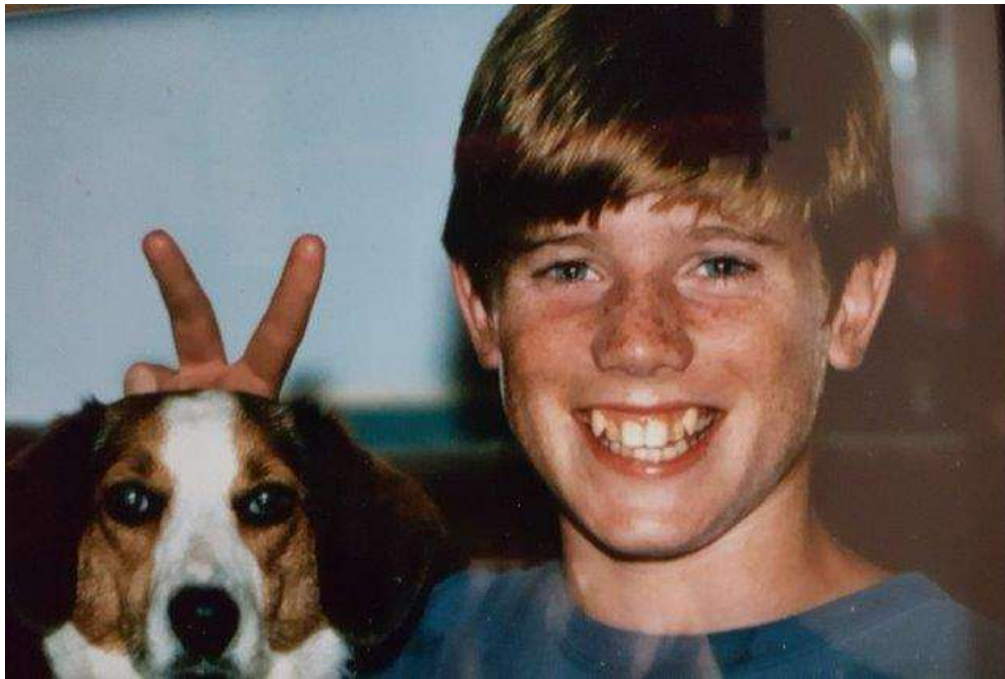

*“Stephen’s story has inspired me to persevere in my studies and continue my passion for the things I enjoy like swimming and music. It made me realize that you should never take things for granted and always cherish the opportunities that you have. I promise to use this money to better our world and make it so that more people have the chance to follow their dreams and pursue their passions. Thank you once again to everyone who made it possible for me to receive this award today.”*”

# Vedant Bedekar & Family

Your next steps with CCCF for funds to get to the University you will be attending in the Fall.
