

ENCOURAGE FAMILY GIVING IN YOUR COMMUNITY

Join the Community Foundations Family Philanthropy Network

Philanthropic families play a vital role in building strong communities.

As a community foundation leader, how can you learn more about supporting and partnering with giving families to achieve greater impact? What skills, tools, and techniques are your peers using to deepen donor services, donor engagement, and donor satisfaction?

The Community Foundations Family Philanthropy Network provides answers, helping you to:

- Explore models of how community foundations work with giving families
- Encourage multi-generational family giving and peer connection
- Cultivate philanthropy among young family members
- Connect geographically dispersed families and navigate family transitions
- Translate family values into philanthropic vision, mission, and strategy

Launched in 2015, the Network draws on the insights of a national Advisory Committee of community foundation leaders and other family philanthropy experts. The Network brings together foundation staff to create shared tools, exchange insights, build capacity for the field, and create new connections.

Through the Network, you gain access to:

- A learning community of more than 30 foundations
- Webinars, topical calls, and in-person sessions to build staff skills and knowledge
- Case studies and issue briefs
- A new *Family Philanthropy Playbook*
- Tools and templates shared by peers
- NCFP's National Forum on Family Philanthropy
- The ability to offer NCFP's Knowledge Center and monthly family giving webinars to your donors

ABOUT NCFP

The National Center for Family Philanthropy is the only nonprofit resource dedicated exclusively to families who give and those that work with them. NCFP provides research, expertise and learning opportunities to inspire our national network of giving families every step of the way on their philanthropic journey. Families learn how to transform their values into effective giving to achieve a positive and enduring impact on the communities they serve.
