Note: The balance sheet gives a snapshot of the financial health of an organization at a particular point in time. An organization's total assets should generally exceed its total liabilities, or it cannot survive long, but the types of assets and liabilities also must be considered. For instance, an organization's current assets (cash, receivables, securities, etc.) should be sufficient to cover its current liabilities (payables, deferred revenue, current year loan, and note payments). Otherwise, the organization may face solvency problems. On the other hand, an organization whose cash and equivalents greatly exceed its current liabilities might not be putting its money to best use.

Organizational Demographics

This section is not a requirement for any of the Nonprofit Profile participation levels - Bronze, Silver, or Gold. Instead, it is a voluntary questionnaire that empowers organizations to share information on the demographics of who works in and leads organizations. To protect the identity of individuals, we do not display sexual orientation or disability information for organizations with fewer than 15 staff.

Any values displayed in this section are percentages of the total number of individuals in each category (e.g. 20% of all Board members for X organization are female).
