--- Brief Mission Statement ---

Our mission is to advance veterinary medicine at the interface of discovery and application. We promote research at the molecular, cellular, organismal, and population levels to better inform the practice of medicine, public health, and policy.

We are dedicated to excellence in research, educational programs and professional service. We seek to advance understanding of both animal and human health, foster open collaboration across disciplines and institutional boundaries, and integrate discovery with application.

--- In brief, what is your proposed use of the grant you are applying for? Please include 3 to 5 goals you expect to achieve with the funding. ---

We propose to use the grant for two need-based scholarships totaling \$12,000 (\$6,000 each) for students interested in pursuing equine medicine after graduation.

1. We hope to ease these students' debt-loads after graduation, giving them more employment options, as they may not have to rely on applying for only the positions with the highest salaries.
2. These scholarships can also help Cornell attract students interested in equine medicine.
3. These scholarships help to encourage and give support to current Cornell students in their interest in equine medicine.

--- If you received a grant from TERF (Thoroughbred Education and Research Foundation) previously, please describe how those funds were used. ---

In the past we have received grants for need-based scholarships for students interested in pursuing equine medicine.

--- Please list the other organizations or major contributors that have provided funding to your organization within the last calendar year. ---

Private donors, New York State, tuition payments.

--- Please describe your charity's public education/research efforts. ---

As a 150 year old College of Veterinary Medicine, our mission is education and research, and our efforts are too numerous to name. Information about the breadth and depth of our activities can be found at our website: www.vet.cornell.edu.

--- Please describe any publicity your charity has earned within the last calendar year. Copies of news articles or a brief summary of news coverage are acceptable. ---

Here is a complete listing of news stories: <https://www.vet.cornell.edu/about-us/news>

--- List 2-3 things that distinguishes your organization and why TERF should fund this proposal. ---

Cornell is one of best schools of veterinary medicine in the country, if not the world. Students graduating from Cornell who then work in the field of equine medicine carry with them the outstanding training and expertise only Cornell provides.

--- Please list your Officers with their Titles ---
